eAppealSolutions Inc. announces buyback of notes from Scientia Health Group Ltd.

MIAMI BEACH, FL – September 9, 2003 — eAppealSolutions Inc., the nation’s only online appeals processing company for challenging disputed healthcare claims, announced today the complete severing of all relationships with Scientia Healthcare Group Ltd., a Bermuda company that invests in healthcare and biotech companies (“Scientia”). All secured notes owed to Scientia and all warrants held by Scientia were cancelled for an undisclosed cash payment and eAppealSolution Inc. no longer has any relationship with Scientia or any of its affiliates.

“Given the continued controversy with Sam Waksal and his involvement with Scientia, the decision to dissolve the relationship was in the best interest of our customers, shareholders, and the Company.” said Dr. William Kirsh, eAppealSolutions’ co-founder and CEO. “Going forward, the Company continues to be confident in its vision for our future and the growth opportunities that exist for eAppealSolutions.”

Since its launch in January 2001, more than 50 clients nationwide have begun processing medical insurance appeals online through eAppealSolutions. Clients include nationally recognized hospitals. Plans for growth include the addition of contracts with hospitals, diagnostic laboratories, and government agencies.

About eAppealSolutions Inc.

Established in August 1999, eAppealSolutions is the only online appeals processing company in the U.S. for the healthcare industry. Based in Miami Beach, Florida the privately held company has developed an on-line, automated solution for challenging disputed healthcare claims. eAppeals helps patients, providers and hospitals save time and money by resolving healthcare claim denials or underpayments and disputes them using the Company’s proprietary rules-based technology.
